## PERSONAL PROJECTS

### ImovdeskBack (12/2023 - Present)

- Back end development for a real state company in Brazil. It was developed using Laravel/PHP framework.
- [Link for the code](#)

### RadioActivity (01/2023 - Present)

- Small project based on Android Studio to build an application to rate animals that returns the name of the animal and the rating.
- [Link for the code](#)

### Villago (09/2023 - 12/2023)

- Front and back end for school project. The back end was made using PHP only connecting to a database.
- [Link for the code](#)

### The M Restaurant (08/2022 - 12/2022)

- First project for Web Client Development course at LaSalle College. I made the design and all the front end, without back end, using HTML, CSS and JavaScript.
